Branchea at the most important places in China, has been in contemplation for a very long period.

The local and foreign trade in Hongkong and at the open ports in China and Japan has increased so rapidv within the last few yours that additional Banking facilitles are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a nosition to deal satisfactorily with the local trade which has become so much more extensive and varied than in former, years. This deficiency the Hongkong and Shanghan Banking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia'in their respective localities. The Establishment of a Mint in Hongkong. providing an adequate supply of proper currency will render a local Banking medium essential carry out its operations, and the almost certain disappearance of the existing Compradoric system (so far as money is concerned) will also ensure Banks becoming in course of time the exclusive.

PENINSULAR & ORIENTAL STEAM NAVIGATION COMPAN NOTICE OF REDUCTION OF PASS. AGE MONEY.

VN the year 1867 the Directors made a consideruble reduction in the Company's rates of Passage Money, which continued in force till 1841. In that year, owing to the extraordinary rise in the Cost and Freight of Coals, and the callanced price of all descriptions of Mayal Stores, the Directors were reluctantly compelled to return to the rates of Passage Money previously in force. They are now happy to state that a decrease in the price of Coal and other expenses of Steam Nuvigation enables them to reduce the Company's Passage rates to the undernoted scale, which will take offect from and after the lat June next, viz:-
